

PROJECT ENVIRONMENTAL ENGINEER/SCIENTIST/GEOLOGIST II

Title: Project Environmental Engineer/Scientist/Geologist II

Business Unit: Remediation - Houston

Reports To: Remediation Business Unit Leader

Position Responsibility: Assist ESE's team with delivery of environmental assessment and remediation services to the marketplace in an organized and disciplined manner, striving to continuously improve in the areas of Consultative Project Management, and Technical Guidance.

Positions Duties:

- Deliver the professional consulting services offered by ESE Partners using ESE delivery systems and methodologies.
- Operate as one of the firm's technical associates with respect to the disciplines related to environmental assessments and remediation.
- Assist in the management of numerous projects simultaneously with potentially widely varying environmental scopes of work.
- Independently manage projects up to \$25,000 in value.
- Develop technical proposals.
- Sustain a 90% utilization rate.
- Conduct Field Investigations – Visual Inspections and physical sampling.
- Manage the installation and sampling of soil borings, temporary monitor wells, and permanent monitor wells.
- Author technical reports in accordance with ASTM, TCEQ and RRC guidelines.
- Perform Risk Based Calculations (Tier 2 PCL development).
- Manage and interpret laboratory analytical data.
- Manage and approve subcontractor accounts.
- Develop Site Maps and other pertinent drawings using Auto Cad, Arc GIS, and Log Plot.
- Develop and maintain professional relationships with existing clients and vendors.
- Candidates must be well versed in the TCEQ's Texas Risk Reduction Program (TRRP) and Petroleum Storage Tank Rules
- Candidate will prepare APARs, RAPs, SIRs and other regulator prescribed submittals.

OPPORTUNITES:

Our goal is to be recognized as the best environmental firm to work for in Texas. We are making major strides in that direction with an ever-increasing amount of flexibility, benefits, rewards, and opportunity for professional growth.
