

STAFF ENVIRONMENTAL SCIENTIST/GEOLOGIST/ENGINEER I

Title: Staff Environmental Scientist I

Reports To: Due Diligence Managing Director

Location: North Texas

Position Responsibility: Assist ESE's Due Diligence team with delivery of services to the marketplace in an organized and disciplined manner, striving to continuously improve in the areas of project delivery and technical support.

Positions Duties:

- Maintain an average utilization target of 90%
- Deliver the professional consulting services offered by ESE Partners using ESE delivery systems and methodologies.
- Operate as one of the firm's technical staff members with respect to the disciplines related to Environmental Science and Engineering.
- Assist in the management of numerous project tasks simultaneously with potentially short turnaround times.
- Perform frontloading tasks associated with Phase I Environmental Site Assessments, Transaction Screens, and Desktop Reviews.
- Tasks include ordering historical data, submitting Freedom of Information Act (FOIA) requests and obtaining appropriate regulatory files from relevant agencies such as the TCEQ and the EPA.
- Prepare reliance letters for review and approval of supervisor or project manager.
- Co-author technical reports.
- Conduct file reviews in support of Phase I Environmental Site Assessments.
- Assist with coding and approving invoices.
- Provide research support to the Due Diligence team as needed.
- Interpret and summarize other consultant's reports and laboratory analytical data.
- Develop and maintain professional relationships with vendors.
- Other duties as assigned
