

STAFF ENVIRONMENTAL SCIENTIST/GEOLOGIST/ENGINEER II

Title: Staff Environmental Scientist II

Reports To: Business Unit Leader

Position Responsibility: Assist ESE's Due Diligence and Corrective Action teams with delivery of services to the marketplace in an organized and disciplined manner, striving to continuously improve in the areas of project delivery and technical support.

Positions Duties:

- Deliver the professional consulting services offered by ESE Partners using ESE delivery systems and methodologies.
- Operate as one of the firm's technical staff members with respect to the disciplines related to Environmental Science and Engineering.
- Assist in the management of numerous project tasks simultaneously with potentially widely varying environmental scopes of work.
- Conduct Field Investigations – Visual Inspections and Multi Media sampling.
- Manage the installation and sampling of soil borings, temporary monitor wells, and permanent monitor wells.
- Assist in the preparation of Phase I and II Environmental Site Assessments.
- Author technical reports in accordance with the ASTM, TCEQ and RRC Guidelines.
- Perform Risk Based Calculations.
- Manage and interpret laboratory analytical data.
- Manage aspects of client accounts and approve subcontractor invoices.
- Develop Site Maps and other pertinent drawings using Arc GIS and Strater.
- Develop and maintain professional relationships with existing clients and vendors.

Opportunities:

Our goal is to be recognized as the best environmental firm to work for in Texas with an ever-increasing amount of flexibility, benefits, rewards, and opportunity for professional growth. We have a very unique culture that is being shaped by the top 10% of professionals in our industry.
